GAIL (India) Limited

# INDIA'S NATURAL GAS LEADER

Energizing Possibilities

GAIL, transforming India's energy landscape  
with presence across the entire gas value chain

- Contributing 53% of the Natural Gas sold in India.
- Operates  $\frac{3}{4}$  of the total Natural Gas transmission pipelines in India

- ☒ Silica
- ☒ Phosphate
- ☒ Sequencer

## Small Footprint, Greater Functionality

### Do More with What's Inside

With the smallest footprint on the market, the on-line 2850Si silica analyzer delivers early, trace-level detection with a robust design for maximum operational flexibility. This 3-in-1 water chemistry solution features an integrated multi-stream sequencer and phosphate measurement capability, allowing you to make the most of valuable panel space and do more with a single analyzer than ever before.

*DelVal Flow Controls is pleased to offer a variety of “workhorse” butterfly and ball valves for challenging upstream, midstream and downstream applications prevalent in the industry. The pressure combinations which are widely prevalent in these industries. A wide variety of design*

**DelVal Series 7 & Series 8 Trunnion Mounted Ball Valves** are designed and manufactured to meet the built with the robustness required to meet the harshest oilfield conditions. Unique features and benefits designed in dependable “fit & forget” performance in the field.

#### 1) Ball

Ball is trunnion supported to match with spring loaded floating seats provide “zero leakage” sealing under high pressures and temperatures. The “self-relieving” feature of seats protects damage from excessive cavity pressure build-up.

#### 2) Stem

Anti-blowout proof stem, with a high “MAST” value and with multiple stem sealing arrangement prevents leakage of fugitive emissions into atmosphere.

#### 3) Features

Typical features required by the oil & gas pipeline applications, such as firesafe seat design, anti-static design, emergency sealant injection provisions, double block & bleed are standard.

#### 4) Body Seal

Double sealing gaskets in the body and end-piece ensures perfect body joint sealing.

**Series 7**

**DelVal Series 44/45 Double Eccentric High Performance Butterfly Valves** provide the best high pressure and high temperature zero leakage, bi-directional fluid sealing solutions.

#### 1) Disc & Stem

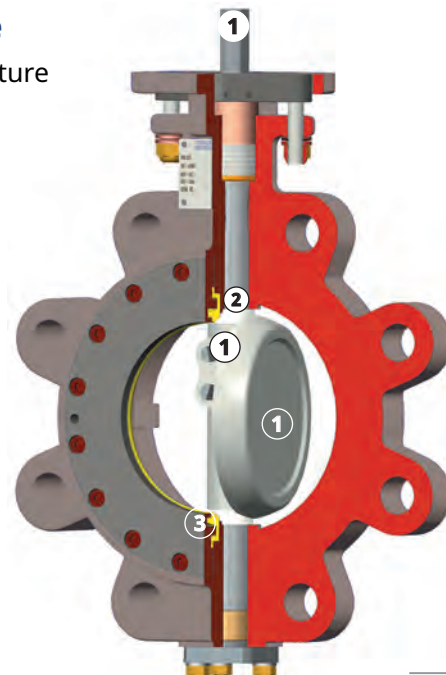

High strength stainless steel disc and stem are assembled by two uniquely designed wedge pins to provide a positive mechanical attachment. Stem seal assembly is live loaded with Belleville springs to ensure constant tight sealing of stem packing emissions.

#### 2) Bearings

The drive and non-drive end stem “Bear-X” bearings provide excellent thermal, chemical and wear resistance .

#### 3) Seat

The unique seat design utilizes a flexible lip seal concept. Provides a constant seating contact for high performance sealing.

Dist. Satara Pin-412801 | India  
salesindia@delvalflow.com

for the Oil & Gas and Petrochemical industry. DelVal valves are designed and manufactured to handle all thousands of valves supplied over the last 15 years are working hard in applications with high temperature and for different body types, materials of constructions, pressure ratings, temperature ratings are available.

latest API specification. They are in the valves deliver highly

Series 8

**DelVal Series 4 Triple Offset Valves** provide the ultimate sealing solutions for combination of high pressure and very high temperature. They are designed for bi-directional, zero leakage sealing for extended periods.

#### 1) Disc & Stem

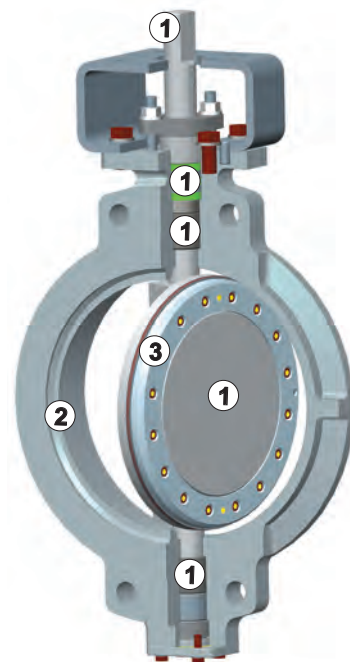

Robust disc + stem assembly designed for minimum pressure drop. Live loaded gland assembly of multiple graphite rings for seal fugitive emissions tightly.

#### 2) Seat

Seat is integral on body and is hard faced with Stellite or suitable alloy. Seat is precision machined to ensure perfect match with the seal ring. Provides bubble tight seal in both directions.

#### 3) Seal Ring

Conical, laminated SS + graphite seal ring is located on the disc. It is precision machined for bi-directional, bubble tight sealing at high pressures and temperatures. Seal ring is replaceable.

**DelVal Series 65 - 72 Full Bore Ball Valves** highly dependable zero leakage sealing and full CV flow with low operating torques. Unique features built in the products differentiate the valve from other similar products available.

#### 1) Ball

Precision machined spherical ball with superior finish, positively engaged with heavy duty stem and located between specially designed and contoured seats provides dependable, zero leakage seal.

#### 2) Adjustable Packing Gland for Stem sealing

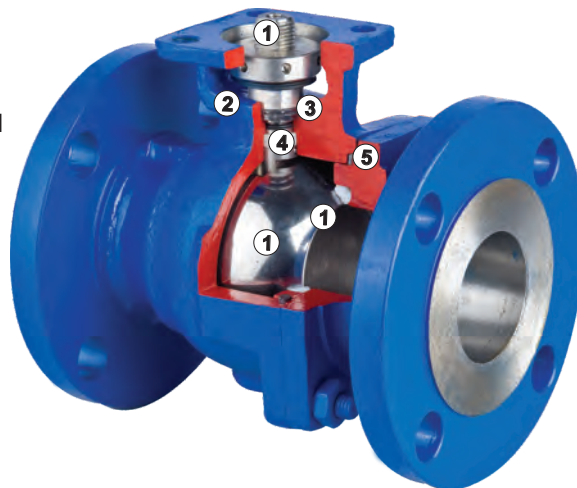

Packing gland bolts are easily accessible to adjust packing with the actuator in place. Online tightening of gland assembly can be done.

#### 3) Stem Sealing

Stem packing in graphite is live loaded with the gland assembly to ensure positive and trouble free sealing. O-ring provides sealing against fugitive emissions.

#### 4) Body Seal

Body joint sealing is by a graphite / reinforced graphite gasket to withstand high temperatures and is contained in a precision-machined groove for extended sealing life.

All products are designed, manufactured, and tested by employing modern manufacturing practices under a robust and certified quality management system. # MAHARASHTRA NATURAL GAS LIMITED

(A Joint Venture of GAIL & BPCL)

**There is no other planet for living ...  
The key to greener planet is in your hands...  
BREATHE EASY...**

**AUTOMOBILE**

**Care for Clean air  
Secure happiness  
For next generation!!!**

**DOMESTIC**

**Different Sectors  
One Solution....**

**INDUSTRIAL**

**Reduces Pollution  
Reduces operation cost  
Improves Health**

**COMMERCIAL**

MNGL, a JV company of two maharatna PSU's GAIL & BPCL established in 2006, is operating Gas Distribution(CGD) project in below GAs.

1. Pune, Pimpri-Chinchwad, Chakan, Talegaon and Hinjewadi
2. Nashik, Dhule & Valsad (except area already authorized) Districts, Maharashtra & Gujarat
3. Sindhudurg District, Maharashtra
4. Ramanagara District, Karnataka

#### Mission:

- To provide clean, environment friendly green fuel Compressed Natural Gas (CNG) as an alternative to the conventional automobile fuels.
- To provide safe, convenient and reliable Piped Natural Gas (PNG) to domestic, Commercial & Industrial sectors.

#### Benefits of CNG:

- In its many forms, natural gas not only gives an economical advantage but also contributes in reducing the carbon footprint.
- Reduces Pollution: A step towards making a cleaner & greener city.
- Economical: Saving on fuel cost.
- Safe : Lighter than air, easily disperses.

#### Our Products:

- CNG for Buses, Cars, Autos & Other Vehicles
- PNG (Commercial) for Hotels & Restaurants
- PNG (Industrial) for Industries
- PNG (Domestic) for Households

#### Benefits of PNG

- 24x7 supply
- Lower capital & operation cost
- Lighter than air, in case of leakage escapes to environment easily
- Cheaper than alternative fuels like Bulk LPG, LDO, HSD & FO
- No daily liaison and logistic cost with PNG
- No spillage, pilferage and wastage
- No storage space required as supplied continuously through pipeline, zero inventory
- Lower maintenance cost with PNG as soot or ash accumulation and greasy spillages are absent from your appliances
- You pay for what you consume & assured long term supply
- Uniform quality of finished product

Emission Comparison	Diesel	CNG	% Reduction
CO	2.4 g/km	0.4 g/km	83
Nox	21 g/km	8.9 g/km	58
PM	380 mg/km	12 mg/km	97

## Silently moving towards its Vision.... CPCL

Chennai Petroleum Corporation Limited (CPCL) - is a group company of IndianOil, is one of the most complex refinery in India. CPCL's growth journey has been a zealous, earnest and remarkable one from a mere 2.5 MMTPA to 10.5 MMTPA.

- ❖ **Pioneer in Indian Petroleum Industry to adopt latest technologies**
- ❖ **A world class 9 MMTPA refinery cum petrochemical complex is planned at Nagapattinam. The refinery offers immense opportunities for small and medium scale industries to set up downstream petrochemical processing units for producing value added products.**

CPCL not only continue to fuel the future significantly but also play a major role in socio-economic development.

Fenix® is a leader in process technologies, offering a wide range of engineering services and process equipment solutions that serves the refining, chemicals and petrochemical industries.

Fenix designs and manufactures a large variety of separator internals FXIntSep used in the Oil & Gas industry. Many of these have uses in other industries but some have been developed specifically for processing of natural gas and petro-crude. Our range of design services to support your front-end engineering including process simulations, internals selection and vessel sizing and optimisation. In addition we offer CAD drafting and 3D plant layout design. Our state-of-the-art manufacturing plant spread across 50,000 sqft. enables us to provide related products like structured packing, mixers, trays, internals and various mass transfer equipments. We also provide facilities for Pilot Plant Trials & case studies.

# Integrated Solutions for the Hydrocarbon Industry

*New Water Injection South (NWIS) project for ONGC, India*

*World's largest Refinery off-Gas Cracker (ROGC)  
for RIL J3 Petrochemical Complex at Jamnagar, India*

*IOCL INDMAX FCC Unit at Bongaigaon, Assam*

With hydrocarbon projects becoming increasingly difficult in terms of scale and complexity, customers today demand a solution-centric approach to project delivery. At L&T Hydrocarbon Engineering, we have been delivering some of the most challenging projects for world's leading energy firms for over three decades. Our integrated 'design-to-build' approach and end-to-end capabilities across the hydrocarbon value chain make us the preferred partner for large and complex Offshore and Onshore hydrocarbon projects. Leveraging our unmatched in-house engineering talent and

world-class fabrication facilities in India and the Middle East, we design, build, and commission projects with unparalleled technical proficiency and speed. Our strong customer orientation and commitment to Quality and HSE lend further credence to our success story. Our lead on the digitalisation front lends us the visibility and the control, necessary to effectively manage project lifecycle from bidding to design, procurement, construction, and operations. With us, your success is guaranteed!

## Pipeline integrity monitoring

ATEX, IECEx, and PESO certified fully-automated long-range pipeline sensors for at extreme temperatures up to 200°C.

## End-to-end industrial project management

Manage shutdowns, turnarounds, outages, construction projects, daily operations, and more in real-time.

## Surveying, Mapping, and Remote Inspection

Visualize and analyze long-range assets like interstate pipelines and transmission lines and bring autonomous UAVs and GIS mapping to your facilities.

## Energy efficiency

Detect any fluctuations and imbalances in voltage, current, and power in real-time with an intelligent IoT sensor, and maximize uptime

## Computation on Edge

Edge AI cameras with inbuilt intelligence powered by machine learning that turn visual data into actionable insights

## Agile Turnaround management

Get complete visibility of assets, data, turnaround tasks, and your workforce and maximize safety and productivity.

# Schlumberger

**Continuous  
innovation**  
from pore  
to pipeline

**That's where the people of Schlumberger come in.** For the past 90 years in the Midcontinent, we've delivered pioneering technologies using our technical expertise. From reservoir characterization and drilling to production and processing, we integrate multidisciplinary products and services to help you optimize hydrocarbon recovery and maximize production.

Explore your options at  
[slb.com](http://slb.com)

**Schlumberger**

**Continuous  
innovation,  
from pore  
to pipeline.**

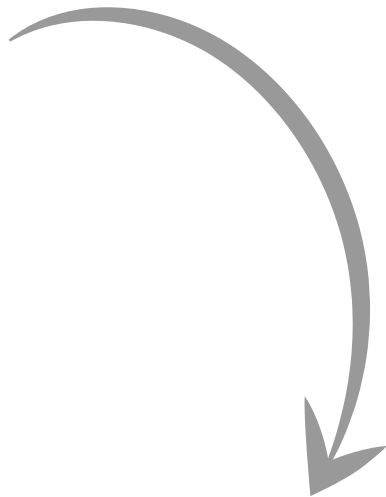

In 1927, Conrad and Marcel Schlumberger used their new electrical well logging technique to identify formations in the Pechelbronn oil field in the Alsace region of France—a first in the oil and gas industry. Today Schlumberger continues to innovate by introducing pioneering technologies delivered with technical expertise gained from decades of experience. From reservoir characterization and drilling to production and processing, we integrate multidisciplinary products and services to optimize hydrocarbon recovery and maximize production for our customers.

[slb.com](http://slb.com)

**Schlumberger**

## Global Stewardship

Schlumberger has a long-standing culture of social and environmental stewardship in the communities where we and our customers live and work. We act on this in a variety of ways, including

- deploying technologies with a reduced environmental impact
- promoting HSE and STEM education globally
- prioritizing the United Nations Sustainable Development Goals that we can most positively impact.

We are committed to conducting business safely and in a manner that preserves and respects human dignity.

# Pioneering AMI Solutions For India From India

Indian utilities are reaping the benefits of 100% smart metering enabled by Fluentgrid AMI solutions.

Fluentgrid AMI™ suite of COTS products can be quickly setup to work with leading meter vendors, helping utilities to expedite AMI rollouts and leverage full benefits of it into distribution planning, demand side management, outage management, customer service as well as operations.

## Leading AMI revolution in India

- First to roll-out IPV6 based UHES.
- First to roll out smart meter based pre-paid metering.
- First to execute a complete end-to-end smart grid suite in a smart grid pilot.
- First to enable AMI for 100% consumers of a utility.
- First to conceptualize the idea of **Smart Metering Operations Centre (SMOC)** solution and bring it to market.

End-to-end AMI suite from Fluentgrid including UHES, MDMS, Consumer Portal, Mobile apps, PQM, DSM and DR complementing Fluentgrid's flagship revenue/customer management offering CIS/CRM.

## Value Proposition

- **End-to-End AMI suite** of COTS products with single point of responsibility and local support.
- **Fluentgrid Unified Head-End System (UHES)** enables seamless data collection from any head-end system.
- **Network Monitoring System (NMS)** component of UHES enables monitoring of meter health and communication status.
- **Meter make/communication technology agnostic** UHES with proven capability of integrating with RF, GPRS, NB-IOT involving several meter makes MDMS has its own **Smart Pre-Paid** module that absolves the utilities of having to upgrade existing legacy systems to support pre-paid billing.
- **Future ready:** Out-of-the box features for handling emerging paradigms like smart meter based pre-paid billing, net-metering, renewable integration, electric vehicle charging infrastructure etc.
- **Smart Meter Operations Center (SMOC)** based on **Fluentgrid Actelligence™**, to get the best out of smart meter deployment through situational awareness, real-time event management, SOPs, AMI Network monitoring, analytics based decision support during roll-out and operations of AMI systems.
- **Global recognition:** Flagship products Actelligence, CIS and MDMS recognized by global research powerhouses like Gartner and Navigant.

Fluentgrid is an Energy Utilities and Smart Cities focussed Indian firm serving over 100+ million consumers in about 50+ Utilities & Cities across the globe with our world-class products, solutions and services. Fluentgrid is the first and only Asian headquartered company whose CIS and MDMS products are featured in the Gartner Magic Quadrant and Market Guide for Utility Customer Information Systems and Utility Meter Data Management Systems consistently since 2014.

# INITIATE. INNOVATE. INSPIRE.

## VISION

- Universal access to sustainable energy solutions
- Enable a low carbon future
- Economic and social impact

We, at Energy Efficiency Services Limited (EESL) always believe in empowering and enabling our target audiences to effectively manage their energy needs through energy efficient techniques.

- Energy Security
- Sustainability
- Self-Reliance

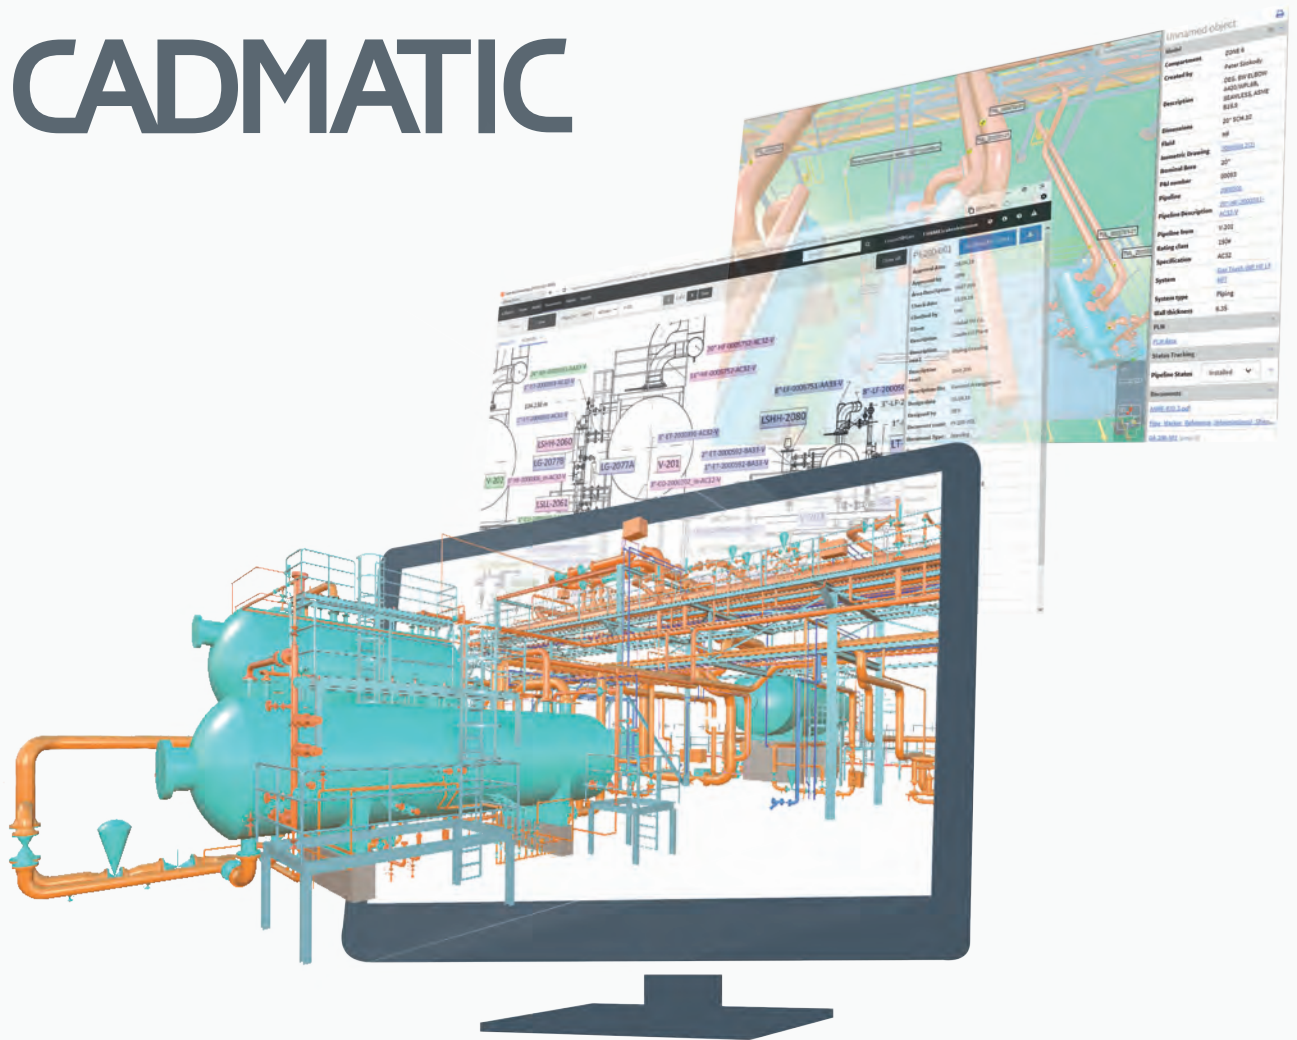

## EESL, towards a Sustainable Future...

## eShare – The Ultimate Information Management Tool for Process-intensive Industries.

Integrate, visualize & share engineering, design, construction and operation information in a web portal.

### eShare - key benefits

- Access all project data in one place – any data in any database can be integrated, searched for and shared.
- Make all decisions faster and more accurately – the right information is available, all the time, to all project participants.
- Boost efficiency of project progress monitoring by visualizing statuses based on several variables.
- Independent solution means no reliance on single vendor. Easy participation by several project parties using different design & engineering systems.

# GAS COMPRESSION SYSTEMS

## Upstream

- Reinjection
- Gas Lift
- Gas Gathering
- Coal Bed Methane
- Power Generation

**Profile :-** Baker Hughes (NYSE: BKR) is an energy technology company that provides solutions for energy and industrial customers worldwide. With operations in over 120 countries and approximately 58,000 employees, we design, manufacture and deliver leading technology solutions for our customers. Powered by the industry's only fullstream technology portfolio, and enabled by our people and scale, we drive productivity and improve outcomes for ourselves and our customers. From the first rotary drill bit to the world's most extensive portfolio of compressors and gas turbines, and from digital solutions that predict outcomes to modular deepwater technology, for more than a century our inventions have been revolutionizing the industry. We are reducing the carbon intensity of our operations, applying proven low-carbon technology to help our customers meet their environmental goals, and innovating for the future of energy. At Baker Hughes, we are taking energy forward – making it safer, cleaner and more efficient for people and the planet. **Profile:-** Established in 1946, Bharat Bijlee is synonymous with electrical engineering in India. The company has two business segments: Power Systems, which comprises the Transformers and Projects businesses, and the Industrial Systems segment, comprising Electric Motors, Drives & Industrial Automation, and Magnet Technology Machines divisions. We cater to a spectrum of applications, industries and the builders of the nation's infrastructure: power, refineries, steel, cement, railways, machinery, construction and textiles.

Headquartered in Mumbai, we have an extensive sales and service network across India. We also serve international markets.

Our manufacturing facilities are located in Navi Mumbai on a 1,70,321 sqm campus, with modern plants for our product lines that have been certified for ISO:

9001:2015, ISO: 14001:2015 & ISO 45001: 2018 standards.

Our motors are suited for various applications i.e. pumps, compressors, agitators, fans/blowers, separators, mixers, centrifuges, screens, conveyors, crushers, among others. They are preferred across all sectors such as Oil & Gas, Pharma, Chemical, Paper, Construction, Water and Water Treatment, Sewage Treatment, Textile, Steel, Cement, and Food & Beverages. Our product range comprises:

Safe Area motors in IE2, IE3 and IE4 efficiency series  
Flame Proof Ex(d) motors in IE2 and IE3 efficiency series  
Increased Safety Ex(ec) motors in IE2 and IE3 efficiency series  
Special Purpose motors such as Crane & Hoist Duty, Brake, Slip Ring and CaneUnloader motors  
HT Motors: Upto 11 kV

We are approved by all major consultants viz EIL, Tecnimont, Jacobs, Aker, etc., and have successfully supplied to many prestigious projects for Reliance Industries, BPCL, HPCL, IOCL, HMEL, HRRL, MNGL and other large utility companies.

In the Oil & Gas sector, our customer profile comprises leading OEMs and contractors such as L&T Hydrocarbon, KSB Pumps, Kirloskar Ebara, Flowserve, KPCL, Accudyne (Milton Roy), DMW, Ruhrpumpen, Dover, Varat Pumps and Thermax.

Products: - Electric Motors, Motors for safe area, hazardous area and special duty (crane, brake, cane unloader, textile) application; Crane Duty Motors; Internal Brake Motors; Safe Area Motors; Brake Motors; Cane Unloader Motors; Flame Proof Ex(d) Motors; Increased Safety Ex(ec) Motors

**Email Id:-** paulca@bharatpetroleum.in

**Website:-** <https://www.bharatpetroleum.in/>

**Profile:-** Discover the rich history of Bharat Petroleum, India's 'best performing' Maharatna Public Sector Undertaking, and its journey from being an Oil and Gas Company in India to a Fortune 500 oil refining, exploration and marketing conglomerate. When Oil discoveries were being made and industries expanded, John D. Rockefeller and his business associates acquired control over numerous refineries and pipelines. With these acquisitions under their belt, they went on to form the Standard Oil Trust – a giant in its own right. Observing this and to counter the growing significance of Standard Oil, three largest rivals - Royal Dutch, Shell and Rothschild's - came together to form a single organisation called Asiatic Petroleum to market petroleum products in South Asia. We are the most admired global energy company leveraging talent and technology. In 1928, Asiatic Petroleum (India) joined hands with the Burmah Oil Company, an active producer, refiner and distributor of petroleum products, particularly in Indian and Burmese markets to form the Burmah-Shell Oil Storage and Distributing Company of India Limited.

**Website:-** [www.buschindia.com](http://www.buschindia.com)

**Profile:-** Busch Vacuum India Pvt Ltd. is 100% subsidiary of Busch SE - Germany, one of the largest manufacturers of Vacuum and Overpressure Solutions. With 66 Busch companies in 44 countries, we can provide sound advice and practical support to our customers on-site. Our product range comprises solutions for vacuum and overpressure technology in all industrial sectors. We have world class manufacturing plant at Germany, Switzerland, UK, Czech Republic, Korea and The USA.

Our vacuum and overpressure solutions are installed in all areas of the oil and gas industry. From exploration and extraction to refinement and distribution. All around the globe.

Our project engineers analyze and focus on your specific requirements and develop a vacuum solution perfectly tailored to your process. Our vacuum solutions are suitable for numerous applications such as :

- Crude oil distillation / fractionation
- Seawater deoxygenation/de-aeration
- Petrol production
- Solvent extraction
- Monoethylene glycol (MEG) regeneration
- Production processes (ethyl benzene, phenol, ODCB, etc.)
- Oil purification
- Priming water pumps
- Water degassing
- Vent gas recovery
- Central vacuum for oil platforms

**Products: -** Pumps & Valves; Pumps, Compressors, Valves, Seals, Fittings, R5 Oil-lubricated rotary vane vacuum pumps • COBRA Dry screw vacuum pumps • SECO Dry-running rotary vane vacuum pumps • TYR Rotary lobe blowers • HUCKEPACK Once-through oil-lubricated rotary vane vacuum pumps • DOLPHIN Liquid ring vacuum pumps • MINK Dry claw vacuum pumps and compressors • VACTEST Vacuum measurement equipment • TAPIR Leak detector

**CADMATIC SOFTWARE SOLUTIONS**

**Segments :-** Oil & Exploration; Gas Technologies; Refining & Petrochemicals; Power

403, 4Th Floor, Dev Corpora, Building, Opp Cadbury Junction, Eastern Express Highway, Khopat, Thane - 400601 India

**Tel :-** 2225410715 , 2225410715

**Email Id:-** ganesh.ramasamy@cadmatic.com

**Website:-** <https://www.cadmatic.com/en/>

**Profile:-** CADMATIC is a leading developer of digital and intelligent 3D-based design, engineering and information management software solutions for the marine, process, and construction industries. Our solutions are used for all kinds of ship, offshore, process plant, and building constructions. These constructions range from luxury yachts to the biggest cruise vessels and offshore platforms, shopping malls and business premises, and food and pharmaceutical projects to the largest power, chemical, oil & gas and pulp & paper projects. Our success is based on close cooperation with our clients and a thorough understanding of their needs, excellent customer service and agile software development. As a result, we offer the most efficient software solutions for modern and digital design, engineering and information management. CADMATIC combines the benefits of an international and growing company, with the feel of a family-owned business. We have customers from all continents and colleagues from 20 different nationalities in 13 offices across nine countries. Additionally, we have certified sales and support partners in 15 countries. CADMATIC is a dynamic and future-oriented company. Our target is to change the engineering world by raising the efficiency and profitability of engineering projects to a totally new level. We love challenges and we make things come true! Every solution we create aims at achieving at least one of our customers' key goals:  
Shortening project lead times  
Minimizing design errors in all project phases  
Increasing efficiency of change management  
Enhancing information accessibility  
We work closely with our customers to keep our software solutions up to date with the demands of modern design, engineering, manufacturing and production companies.  
Our values  
Succeeding together!  
Delighting customers!  
Continuously improving!  
We make it come true!

**Mission and vision**

We increase business efficiency in the marine, process, and construction industries by optimizing design, engineering, production, construction and information management processes throughout the entire life cycle of investment projects. We want to be globally recognized as the developer and provider of the most intelligent, efficient and innovative software solutions. Our solutions reduce investment and operating costs, shorten lead times, improve quality and increase profits in globally distributed working environments. We achieve this by combining software engineering skills with practical design, project and operational know-how.

**History**

The development of 3D design software was originally started in the mid 80's for in-house use by CADMATIC's mother company, Elomatic Ltd, to take advantage of 3D technology in improving the design, visualization, distribution and total cost efficiency of projects. The development project for a 3D plant design program was started in 1983 and by 1985 the first pilot project using the new 3D technology was completed. Improvements in design and overall efficiency were remarkable and as such it was decided to found CADMATIC Ltd in the early 1990s with the responsibility of marketing and further developing CADMATIC 3D software.

It was at this time that CADMATIC also started its co-operation with Dutch partners Numeriek Centrum Groningen B.V. to develop comprehensive 3D design solutions for ship design under the NUPAS-CADMATIC brand name while continuing with plant design software development under the original CADMATIC name. In September 2015 CADMATIC acquired all the shares and business operations of Numeriek Centrum Groningen, after which the companies' operations were combined. At the same time all branding was united under the CADMATIC brand and product name. In August 2019 acquired Finnish software company Kymdata and its CADS software for electrical and automation design. After the acquisition, CADMATIC's business operations were divided into three customer segments: Marine, Process & Industry, and Construction. CADMATIC's growth has been impressive since the early days with more than 6000 customer organizations in 60 countries to date.

**Products:-** Gas Pipeline Infrastructure; EPC & Engineering services ; Pipelines; Power Plant Automation & Control, CADMATIC P&I Seat (PD1); CADMATIC 3D Plant Design Seat (PD2); CADMATIC CoDesigner (PD5); CADMATIC Cable Router (PD6); CADMATIC HVAC Spools (PD7); CADMATIC Laser Scan Modeller (PD8); CADMATIC Plant Interfaces; CADMATIC Draw; CADMATIC eShare

## CHENNAI PETROLEUM CORPORATION LIMITED

**Segments :-** Oil & Exploration; Gas Technologies; Refining & Petrochemicals; Power; Surface Eng & Corrosion Control

New No:536, Anna Salai, Teynampet,  
Chennai - 600018  
India

**Tel :-** +91 44 24349833

**Email Id:-** rksamy@cpcl.co.in

**Website:-** <https://cpcl.co.in/>

**Profile:-** CPCL Refinery Overview: Chennai Petroleum Corporation Limited (CPCL), one of the leading group companies of Indian Oil's, was conceived in 1960s as a 2.5 million metric tonnes per annum (MMTPA) refinery designed to produce fuels and lubes base stock. At CPCL, the past five decades have an eventful, growth-oriented phase as the CPCL family built the organisation to reach the present stature of 10.5 MMTPA capacity.

Today, CPCL stands one among the leading public-sector refining companies in India, producing an array of value-added petroleum products. It also pioneered key initiatives in several areas such as process optimisation, technology absorption, energy conservation, waste land reclamation and environment management. The refinery is one of the most complex and integrated refineries in India with three Crude Distillation Units (CDU/VDUs), Hydrogen Generation Units (HGUs), Hydro-Cracker unit (HCU), Fluid Catalytic Cracking unit (FCCU), Continuous Catalytic Reforming unit (CCRU), Isomerisation unit, Delayed Coker Unit (DCU), Visbreaker unit (VBU), Diesel Hydro De-sulphurisation unit (DHDS), Diesel Hydro-treating unit (DHDT), Lube Hydro-finishing unit, NMP Extraction unit, Propylene unit and Petrochemical Feedstock unit with fuel, lube, wax & petrochemical feedstocks production facilities.

The main products of the refinery are LPG, Motor Spirit, Superior Kerosene,

Aviation Turbine Fuel, High Speed Diesel, Naphtha, Bitumen, Lube Base Stocks, Fuel Oil, Hexane and Petrochemical feed stocks. Manali Refinery plays vital role of a mother industry supplying feedstocks to the neighbouring industries located in Manali, Chennai. CPCL is also producing and directly marketing Sulphur, Petcoke, Paraffin Wax and other petrochemical products.  
Vision:

To be the most admired Indian energy company through world class performance, creating value for stakeholders.

**Mission:** To manufacture and supply petro products at competitive prices, meeting the quality expectations of the customer. To pro-actively fulfill social commitments, including environment and safety.

To constantly innovate new products and alternate fuels. To recognize Human Resources as the most valuable asset and foster a culture of participation for mutual growth. To ensure high standards of business ethics and corporate governance.

To maximize growth, achieve national pre-eminence and maximize stakeholders wealth. CPCL's second refinery, located at Cauvery Basin at Nagapattinam was commissioned in 1993 with the installed capacity of 1.0 MMTPA. A new refinery of 9.0 MMTPA capacity with Petrochemical facility is being constructed in place of the existing 1.0 MMTPA capacity refinery.

**Profile:-** For more than 100 years, companies around the world have chosen Elliott for the design, manufacture and service of their critical turbomachinery. Primary products include centrifugal and axial compressors, steam turbines, power recovery expanders, cryogenic pumps and expanders, and auxiliary systems for rotating equipment. Elliott products and services are used throughout the world in the oil & gas, liquefied gas, refining, and petrochemical industries, as well as in other industrial and power applications.

In addition to its full line of rotating equipment, Elliott offers complete global service packages including parts, repairs, emergency response, scheduled outages, service engineering, modifications & upgrades, training, and customized research.

**Products:-** Compressors; Cryogenic Pumps & Expanders; Pumps, Compressors, Valves, Seals, Fittings; Steam Turbines; Repair Services; On-site Services; Rerates and Modifications. Elliott compressors are core components of energy-related plants around the world, delivering state-of-the-art performance in a diverse range of industries. Elliott's portfolio includes a number of engineering firsts, including refrigeration compression, high-pressure casing technology, development of fabricated casings, and improved impeller welding techniques. Elliott compressors incorporate advances in aerodynamics, rotor dynamics, thermodynamics, and metallurgy. Recent innovations include carbon capture and hydrogen energy storage applications, and a proprietary compressor performance prediction tool. Elliott steam turbines provide exceptional value and performance in a broad range of mechanical and power generation applications. With a reputation as the most rugged, reliable and versatile drivers in the industry, they are built to perform and endure years of continuous service. These units can be built to API standards and customized to meet exacting customer

**Profile:-** Since 1957, Growel has been a trendsetter in the General Metal Finishing Industry and a formidable player in the field of Electroplating, Specialty Chemicals and Engineering equipment. In 2005, Growel ventured into real estate development and built a sprawling 475000 square feet shopping centre in the western suburbs of Mumbai. In 2007, with the addition of protective coatings & industrial lubricants into its manufacturing foray, Growel became a one-stop solution provider for the protection of all types of substrates across various industrial segments.

Growel's R&D is recognized by The Indian Council of Science & Technology for its innovative & technological prowess in the Chemical & Paint divisions. This recognition stands as testimony to our unwavering commitment to developing and producing quality products that are safe for the environment.

Growel's Chemical & Paint division is IMS (Integrated Management System) Certified. We are also the first Chemical Company in India to have received the coveted AS9100 Aerospace Certification, established by the Aerospace industry, which demonstrates our ability to satisfy DOD, NASA, and FAA quality standards.

As a corporate citizen conscientious of our environment & people's welfare, we are constantly engaged in the development of latest & sustainable green practices within our organization. Besides that we also work with the local communities through our various CSR activities, ensuring the development of the human capital at large.

We are bound to all our stakeholders to build, trust & deliver the highest quality products & services by embracing fair trade practices through ethical & transparent dealings. We are dedicated to operate our facilities with utmost respect for the communities & environment in which we all live & work as they constitute an integral part of our business philosophy, effectively driving sustained growth.

# Exhibitor's Information

Our commitment to excellence, innovation, people strategy, systems, and processes are designed to make Growel an employer of choice.

**MISSION:** To be a predominant global player in the field of surface finishing, which invokes pride in all our stakeholders through innovation, customer centricity, fair trade practices, integrity, sustainability, and care for our planet.

**VISION:** To be in Top 2 in all our businesses on the strength of our people and values.

**Website:-** <https://www.greenovoc.com/>

**Profile:-** Greenovoc Specialty Coatings Pvt. Ltd., is a Leading manufacturer of Water based Zero VOC Green Coatings. We are a team of Chemical Engineers, Doctorates in Chemistry and Industry Professionals.

What do we offer:

Innovative Water based Green Environment friendly Products Zero VOC

Patented Grafted Copolymer Technology

Customer-centric Application Solutions

Strong R&D Nationally and Internationally tested and accepted product range.

Our range of products is highly innovative and environment friendly with many comfort advantages such as:

Easy to apply

Single pack systems (no Primer needed)

Non Toxic - Fumes free ( during & after application)

No Odour

Quick drying at room temperature

High Performance Properties like Resistance to Corrosive Chemicals, UV Radiation, Fire & Saline environment.

**PRODUCTS to Suit All Applications:**

1. Galvanizing Coating GALVART-0723: Effective

substitute for Hot Dip Galvanizing

2. High Performance Anti-corrosion Protective Coating CORRONIL-0767: For Ferrous & Non-Ferrous metals

3. Heat Insulation cum Waterproofing Coating SURFACOL-0712: For Metal, Concrete & Cement surfaces

4. Interior Coating INTERGRANDE- 0720: Anti-Microbial, Anti-Bacterial

5. Waterproofing Solutions :

PRODECOAT-0770 for coating for Exterior Walls;

POLYSEAL -0724: Waterproof Coating for Wet Areas like Water Tanks, Swimming Pool etc.;

PMT-XL Polymer Membrane Technology for Terraces, Sloping Surfaces, Basement; Aquapack Expansion Joint Technology for wall and flooring joints

All Products come with a value proposition of Assured Quality, Prompt Delivery , Application Support, Peace of Mind for Customers and an Amazing Warranty. We cater to lot of prestigious Clientele both Domestically and Internationally.

Look forward to receiving your valuable patronage.

**Products:** - Paint & Industrial Coatings;Surface Engineering, Anticorrosion Coatings, Galvanizing Coatings, Thermal Barrier Coatings, Heat Insulation Energy saving Coatings;Anti-Microbial coating;Waterproofing Solutions

**Profile:-** Larsen & Toubro (L&T) is an Indian multinational engaged in EPC Projects, Hi-Tech Manufacturing and Services. It operates in over 50 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.

L&T Hydrocarbon Engineering (LTHE), a wholly owned subsidiary of L&T, offers integrated 'design-to-build' solutions for complex onshore and offshore hydrocarbon projects across multiple geographies. Its track record includes simultaneous execution of multiple, complex, large-value projects meeting stringent delivery schedules, quality, and safety norms. LTHE's in-house capabilities are complemented by partnerships with global leaders while its competitive strengths in project management, engineering, procurement, fabrication, manufacturing, construction, installation, and commissioning, combined with best-in-class HSE standards, enable it to consistently deliver on all parameters. Organized under Offshore, Onshore, Construction Services, Modular Fabrication, Advanced Value Engineering & Technology (AdVENT) and Operations & Maintenance businesses, the company's comprehensive range of offerings cover upstream, midstream and downstream segments supported by technologically advanced solutions at every phase of the project.

With the Energy Transition gaining momentum globally, L&T has embarked on the Green Energy journey. This encompasses evaluation and setting up of Green Energy manufacturing facilities, development of assets across the value chain as well as EPC projects covering Green Hydrogen, Green Derivatives and Carbon Capture

Raigad - 410208  
India

**Tel :-** 8308435600 , 8308435600

**Email Id:-** mandar.damle@nipponpaint.co.in

**Website:-** pc.nipponpaint.com

**Profile:-** Nippon Paint (India) Pvt. Ltd. is a 100% subsidiary of Nippon Paint Holding Co. Ltd, Japan & Nippon Paint South East Asia, (NIPSEA). NIPSEA group has operations spanning across 16 countries with more than 79 manufacturing facilities in the regions. Nippon Paint is Asia's No. 1 and world's 4th largest Paint company with Turnover of USD 5.83 Billion reported in 2019.

With over 137 years of experience in the paint industry Nippon Paint produces high-quality paints and coats for automotive, industrial and decorative sectors. Over the years, Nippon Paint has perfected its products by means of breakthrough paint technology, with an emphasis on innovation and eco-friendliness.

Nippon Paint started operations in India in year 2005 with Decorative Coatings business.

Subsequently business operations were expanded with start of Coil Coating Business

in 2007, Industrial and Automotive Business in 2010 and Auto Refinish Business

by 2012. Nippon is also present in Marine segment in India since 2010.

In short span of time Nippon Paint has well penetrated in India market. In 2019 we reported the Turnover of around INR 1,275 Cr.

Nippon Paint India recently started Protective Coatings division with its global range of products. This will strengthen company's position in Industrial coatings segment.

In June 2016 Nippon Paint India has handed over Passenger car OEM Business to Berger Nippon Automotive Paint. Nippon Paint (India) Pvt. Ltd.

Continues to focus on other businesses in Auto Paints segments like Passenger car ancillaries, CV, CE, AE, Two-Wheeler & Three-Wheeler.

At present Nippon Paint India has got 3 manufacturing plants across India i.e.

Chennai - Trade Unit (TU) - Decorative, "GreenCo (Gold Rating) certified by CII"

Taloja - Industrial Unit (IU) - Coil Coatings, Auto Paints and Industrial Coatings

Bawal- Auto Refinish Unit (AU) - Auto Refinish and

Wood Coatings

We have wider network of Warehouses & Distributors across India as well as growing dealer network.

At Taloja plant we produce Coil Coatings, Auto Paints, Protective Coatings and Industrial Coatings.

Plant is spread over 17 Acre of land at Taloja near Navi Mumbai, Maharashtra with annual capacity of 21 Million Litres+. This plant is certified with ISO14001-2015, ISO45001-2018, IATF16949 2016 -Certificate-1, IATF16949 Certificate-2, ISO9001 2015 Certificate-1 and also has AEO - Exporter Importer status. Taloja plant also accommodates R&D centre with the state-of-the-art facilities.

Nippon Paint is also entering into producing Resin for in house requirement thus making a backward integration. This will help us to maintain high level quality standards as well as introduce Innovative products.

At present we have largest market share in Coil Coating segment in India. In

addition, we have also started exporting Coil Coating to Nepal, African

countries. We are also entering the markets in Middle East Countries and Russia

by exporting Paints from India plant.

**Profile:-** Power Grid Corporation of India Limited (POWERGRID), is an Indian state-owned electric utility company headquartered in Gurugram, India. POWERGRID transmits about 50% of the total power generated in India on its transmission network.

## PRAJ INDUSTRIES LIMITED.

**Segments :-** Oil & Exploration; Gas Technologies; Refining & Petrochemicals

Praj Tower, 274 & 275, Bhumkar Chowk-Hinjewadi Road,  
Hinjewadi,  
Pune - 411057, India

**Tel :-** 71802000 , 71802000

**Email Id:-** info@praj.net

**Website:-** https://praj.net/

**Profile:-** Praj, India's most accomplished industrial biotechnology company is driven by innovation, integration and delivery capabilities. Over the past three decades, Praj has focused on the environment, energy, and agri-process industry, with 1000++ customer references spanning 100+ countries across all 5 continents.

Praj's diverse portfolio comprises of Bio-energy solutions, Critical process equipment & skids, Breweries, Zero liquid discharge systems and High purity water systems. Praj Matrix, the state-of-the-art R&D facility, forms the backbone for the company's endeavors towards a clean energy-based Bioeconomy.

Led by an accomplished and caring leadership, Praj is a socially responsible corporate citizen. Praj is listed on the Bombay and National Stock Exchanges of India. Critical Process equipment & Skids division of Praj provides world-class solutions to global customers across oil & gas, petrochemicals, industrial gases & chemicals. Praj Specializes in engineering and manufacturing of critical static equipment and modules with separate carbon steel and stainless

steel fabrication shops. Praj offers specialized services in conceptualizing, engineering and manufacturing modular process packages along with Critical equipment such as reactors, High-pressure vessels, heat exchangers, columns and customer-specific proprietary equipment. Products: - EPC & Engineering services, Critical equipment, Modular process skids;Critical equipment;Modular Process skids;Columns;Heat exchangers;Pressure vessel

### **RASCHIG PMC INDIA PRIVATE LIMITED**

**Segments :- Oil & Exploration;Refining & Petrochemicals;Power**

No.601, 6Th Floor, Windfall Bldg, Sahar Plaza,  
Andheri Kurla (East)  
Mumbai - 400059  
India

**Tel:** + 91-022-42919999

**Email Id:-** sray@raschig.de

**Website:-** <http://www.raschig.com/>

**Products:** Raschig Super Ring (Random Packings), Raschig Super Pak (Structured Packing), Raschig Trays, Raschig Tower Internals, Raschig is The Leading Manufacturers of High Performance Random Packings and Structured Packing in Order to meet Customer's Needs. The Capacity Increase Can Go Up from 15-20% by Utilising Raschig Fourth Generation Random Packing and Structured Packing. We Also Offer Various Types and Sizes of Internals, Manufactured in Metal Or Plastic as Well as Trays and Design Them According to The State of The Art of Chemical Engineering and Mechanical Design. We Are Specialised in Column Optimisations which Result in Better Yield and Purity of The Products. These Products Are Manufactured in Our Well-equipped Plants At Germany, Korea, China and India Utilizing Their State-of-the-art Technology and Quality Assurance Systems. They Are Also An Accredited ISO 9001:2008 and ISO 14001:2004 Company. Our Strength Lies Not Only in Supply of Products On Schedule But Also in Providing Technical Service Through Trained and Qualified Engineers.

### **ROXUL ROCKWOOL TECHNICAL INSULATION INDIA PRIVATE LIMITED**

**Segments :- Oil & Exploration;Gas Technologies;Refining & Petrochemicals;Power**

Wing B-2, 2Nd Floor, Unit No. 206, Boomerang, Near Chandivali Film Studio,  
Chandivali Farm Road, Andheri ( East )  
Mumbai - 400072  
India

**Tel :-** 2267157700 , 2267157700

**Email Id:-** priyanka.vaidya@rockwool.com

**Website:-** <https://www.rockwool.com/in/>

**Profile:-** ROCKWOOL stone wool insulation is one of the world's bestselling brand of stone wool insulation. Our purpose is to "Release the natural power of stone to enrich the modern living". Our Sales office is situated in Mumbai, Maharashtra and factory in Dahej, Gujarat. ROXUL ROCKWOOL Technical Insulation India Private Limited have been delivering the best stone wool insulation products in India since 2011 as a subsidiary of ROCKWOOL International A/S.

We at ROCKWOOL make and supply a full range of smart and sustainable insulation products for the construction and process industries based on innovative stone wool technology. We provide a range of stone wool insulation solutions for building envelopes and industrial insulation. ROCKWOOL stone wool is a naturally renewable and sustainable material, as it is made from one of nature's most abundant resources -volcanic rock. For more information please visit [www.rockwool.com/in](http://www.rockwool.com/in).

**Products: -** , Insulation ;ROCKWOOL stone wool insulation ;ROCKWOOL ProRox Slab;ROCKWOOL ProRox Pipe;ROCKWOOL ProRox Wired Mats

### THDC INDIA LIMITED

**Segments :-** Power

Corporate Office, Rishikesh Pragatipuram, By Pass Road, Rishikesh - 249201 (Uttarakhand)

**Tel:** +91 0135 2439 463

**Email:** gauravkumar@thdc.co.in

**Website:** <https://www.thdc.co.in/>

**Profile:-** THDCIL is one of the premier power generators in the country with installed capacity of 1587 MW with commissioning of Tehri Dam & HPP (1000MW), Koteswar HEP (400MW) in Uttarakhand, Wind Power Projects of 50MW at Patan & 63MW at Dwarka in Gujarat, 24MW Dhukwan Small Hydro Project, Jhansi, Uttar Pradesh and 50 MW Solar Power Project at Kasaragod, Kerala to its credit

### TERELEQ PTE. LTD

**Segments :-** Surface Eng & Corrosion Control

77, High Street, #07-03, High Street Plaza, Singapore, Singapore - 179433 Singapore

**Tel:** +65 69093672

**Email:** info@tereleq.com.sg

**Website:** [www.tereleq.com.sg](http://www.tereleq.com.sg)

**Profile:-** Tereleq is a regular distributor / supplier of electrical and instrumentation product ranges; HVAC and associated Living Quarter product ranges, Mechanical item ranges, imports from various countries as well as is able to collate various materials for delivery from its offices in Singapore, thereby assisting clients to free up their own resources for orders that are supplied as engineered or loose supply packages. The advantages to the EPC are obvious: Economies of scale lead to cost competitive prices, manufacturer lead deliveries take priority because of repeated order placement by the company. Design and Engineering consultants and EPC take advantage of Design, Data, Third Party Inspections and a single Purchase Specification approval, allowing client to free up its own resources. Obvious advantages that cannot be overlooked.

**TUBACEX GROUP**

**Segments :- Oil & Exploration; Gas Technologies; Refining & Petrochemicals; Power**

402 A, Platina G-Block, Bandra Kurla Complex,  
Bandra (East),  
Mumbai - 400051  
India

**Tel :-** 9545336917 , 9545336917

**Email Id:-** snair@tubacex.com

**Website:-** <https://www.tubacex.com>

**Profile:-** Tubacex, a Global Leader in Seamless Stainless Steel Tubes manufacturing

TUBACEX is an industrial Group founded in 1963 devoted to manufacturing seamless tubes in stainless steel and high-nickel alloys and superalloys, with its head office in Llodio (Alava-Spain).

TUBACEX is a leading multinational Group, with industrial facilities in Spain, Austria, the United States, Italy, India and Thailand, a global distribution network (TSS) and a worldwide sales presence.

TUBACEX, is the largest worldwide producer of seamless tubes in stainless steel and high-nickel alloys, and one of the few companies to have an integrated production: steel manufacturing, hot extrusion and cold-rolling of the tubes. The existence of our own steelworks provides the facilities with a large flexibility in the production of tubes, both for the opportunity of making special castings as well as reducing delivery times in urgent orders. The Group has a unique marketing structure for its products on the world wide level

The main demand segments for the tubes manufactured by TUBACEX are the oil and gas, petrochemical, chemical and power generation industries. It also devotes part of its production to the mechanical industry, aerospace, food, water desalination, electronics, capital goods and new technologies, among other industries.

Our customers are leading companies in the Oil & gas, refining, petrochemical, fertilizer, power generation and metal-mechanic industries, with high quality standards and innovation and the need of increasingly sophisticated tubular solutions for the most challenging environments, in applications and products as Oil Country Tubular Goods (OCTG), tubes for subsea application (umbilical, risers, manifolds, flowlines), tubes for furnaces, heaters and re-heaters for the petrochemical industry, tubes for boiler equipment for the power generation industry and Heat exchanger, reactor and condenser tubes for the petrochemical and fertilizer industries.

Quality and service to our customers are the main

drivers of our activity, with a wide list of approvals by end users and international organisms of both products and management systems. Tubacex Group is highly engaged with the environment and all production units are ISO 14001 certified. Additionally occupational health and safety is also a key element of our culture. The group's manufacturing sites are OSHAS 18001 certified. More info at [www.tubacex.com](http://www.tubacex.com)

**Products:-** Transportation & Storage; Heat Exchangers; Boilers; Pipelines; Turbines & Boilers, Reactor and condenser tubes for the petrochemical and fertilizer industries; Tubes for boiler equipment for the power generation industry and Heat exchanger; Tubes for furnaces, heaters and re-heaters for the petrochemical industry; Oil Country Tubular Goods (OCTG); Tubes for subsea application (umbilical, risers, manifolds, flowlines); Round bars, Billets & Ingots; Fittings and Special Components

## 30<sup>th</sup> International Exhibition and Conferences 22-25 February 2022

Venue: Bombay Exhibition Center, Goregaon (East), Mumbai, India

### Concurrent Events

### Scope for CHEMTECH + Biopharma World Expo 2022

- Refining & Petrochemical products
- Biotechnologies
- Chemical & Pharma Processing Equipment
- EPC Services
- Automation Technologies
- Environment Solutions
- Water & Wastewater Treatment Technologies
- Pumps & Valves
- Pipes & Fittings
- Packaging Solutions
- Material Handling Systems
- Analytical & Laboratory Technologies
- Consulting Services
- Equipment Fabricators

### Scope for Specialty Chemicals World Expo 2022

- Agrochemicals Intermediates
- Adhesives & Sealants
- Agrochemicals & Crop Protection
- Bulk Drugs & Intermediates
- Enzymes
- Colorants, Dyes & Pigments
- Cosmetics & Personal Care Ingredients
- Hygiene & Cleaning Chemicals
- Laboratory Chemicals
- Surfactants
- Water Treatment Chemicals
- Catalysts
- Electronic Chemicals
- Flavours & Fragrances
- Contract Manufacturers

### FACTS & FIGURES - CHEMTECH WORLD EXPO 2019

<b>612</b>	<b>18962</b>	<b>18</b>	<b>85</b>	<b>923</b>	<b>2150</b>
EXHIBITORS	VISITORS	COUNTRIES	SPEAKERS	DELEGATES	STUDENTS

## Benefits for Exhibitors

- ✓ **Business Interactions:** Meet over 800 exhibitors from across the entire value chain of the chemical process industry
- ✓ **Strategic alliances:** Interact with the entire supply network across the Chemical, Pharma & Biotechnology sectors from a single location
- ✓ **Market analysis:** Evaluate the Indian consumption market and get feedback with over 25,000 visitors walk-ins over 4 days
